

Biolinks Alliance Presents

CONNECTING WILDSPACES SO PEOPLE & NATURE CAN THRIVE

*with renowned US Wildlife Veterinarian
and Conservation Biologist Dr Gary Tabor*

With 150 native species threatened with extinction in Central Victoria we need new ways to tackle the problem.

Lessons from
trailblazing
conservation projects

Why connecting
habitats is our
best chance

How you can be
part of the solution in
Central Victoria

Tuesday 20 March 6 - 7pm

Kyneton Mechanics Institute 81 Mollison St, Kyneton

Doors open at 5.30pm / drinks will be available for purchase.

Tickets: \$10

(Free for members of Biolinks Alliance member organisations)

BOOK NOW www.trybooking.com (search tabor)

or visit www.biolinksalliance.org.au/gary-tabor-talk

Gary is co-founder of Yellowstone 2 Yukon Conservation Initiative connecting habitat across America and into Canada. Gary will share his experience in protecting habitats in across Africa, the US and Australia.
